Hello Human Pet!

Kitty #46940 - Gen 15

Fast

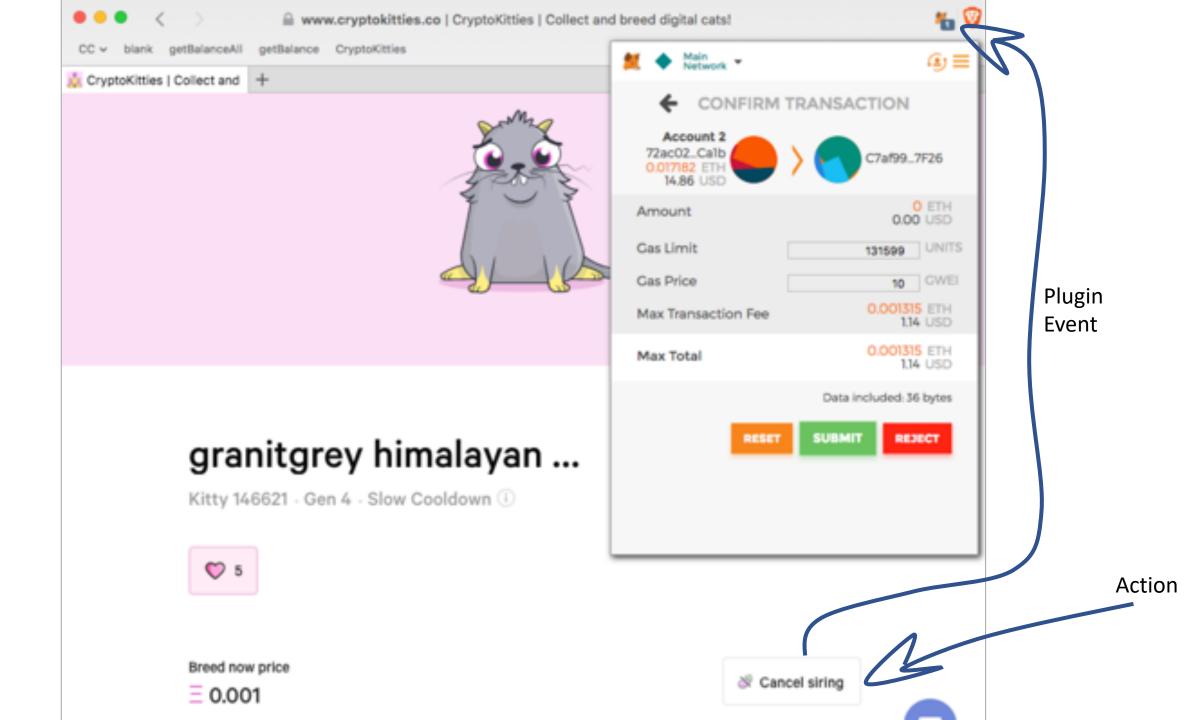

granitgrey himalayan spock <3

Kitty 146621 - Gen 4 - Slow Cooldown ①

How it works

- 100 founder kitties
- New Gen 0 cats, every 15 mins
- Price, average last 5 sold + 50%
- Anyone can sell in auction
- New cats by breeding
- 256 Genome: color, cooldown time, whiskers, etc. some recessive
- Each time you breed generation increases by 1
- Very valuable

You own it

(no one can take away from you)

How to turn 1 digital cat into 150 analogue cows

One of the coolest things (and definitely the cutest) to come out of ETHWaterloo was CryptoKitties, self-described as "a game centered around breedable, collectible, and oh-so-adorable creatures we call CryptoKitties!"

About a month ago, they launched a bounty on their smart contracts, and I thought I'd take a look. I found a few modest bugs (the code's very well written) and in return they awarded me with this, my very own BugKitty:

Follow

I actually like the digital cat games. They illustrate very well that the value of a blockchain extends far beyond applications that would literally get shut down by banks or governments if they did not use one.
